

## **Position: Construction Laborer / Field Technician**

Datanet Engineering is seeking laborers and field technicians to work on construction and engineering projects. The candidate will assist with this work in ways such as the following:

- Loading up equipment daily into vehicles for jobsites
- Digging trenches and backfill areas including grading as needed.
- Assisting with demolition of a variety of items and structures
- Assist with preparation of concrete sub-base, forms, rebar and other concrete related tasks.
- Operate hand tools, power tools, safety equipment and machinery as required.
- Assist Engineers and Tank Installers with field work on a daily basis.
- Perform basic testing procedures and document findings.
- Complete other tasks as they are assigned.

The ideal candidate will be motivated, reliable, work safely and have a strong work ethic. Candidate must have clean driving record and be drug-free. Pre-employment drug screening and DOT physical is required.

## **Qualifications:**

- Good oral and written communications.
- A positive attitude and team player with the expectation of success.
- Valid driver's license with excellent driving record.
- Able to lift 100 lbs., climb ladders, work in standing and kneeling positions for extended periods of time.
- Jobsite construction experience is required
- Ability to use hand tools and operate power tools.
- Experience in operating equipment and machinery is a plus (skid steer, excavator)
- Reliable transportation to office every day
- Professional appearance
- Self-disciplined, high energy, organized, customer focused, problem solver, good listener and trust builder.

**Salary & Benefits:** The exact wages and benefits will be negotiated. However, we offer very competitive pay, vacation, paid holiday, health benefits, safety boot allowance, long term and short-term disability, life insurance, sick and personal days. Entry level positions as well as trained/certified applicants all have room to move up and grow within the company.

This is a full-time hourly position generally with hours from Monday – Friday starting at 6am or 7am – till 4-6pm depending upon the day. Overtime is extremely likely every week. All work begins and ends at our offices in Owings Mills, MD. Most of our work is completed in Maryland, DC, Northern VA, and occasionally travel to other states for short periods of time.
