

Position: Petroleum Service Technician

Datanet Engineering is actively seeking experienced service technicians. The ideal candidate should have proven experience in the petroleum equipment industry with certifications from various manufacturers such as Veeder-Root, INCON, Gilbarco, Dresser Wayne, Gasboy, Red Jacket, etc. Qualified candidates should be able to service, repair and rebuild fuel dispensers, pumps, piping, valves, and leak detection systems. Datanet Engineering offers a variety of internal and supplier training programs to ensure our service technicians are up to date with the latest technology and knowledge needed for this position.

The ideal candidate will be motivated, reliable, work safely and have excellent mechanical abilities. Candidate must have clean driving record and be drug-free. Pre-employment drug screening and DOT physical is required.

Qualifications – The ideal candidate should have:

- Good oral and written communication skills.
- A valid driver's license with excellent driving record.
- The ability to accurately create written documentation of field activities in English.
- Experience in service, repair and maintenance of fuel storage and dispensing equipment, including mechanical equipment used in maintenance and repair.
- Demonstrate superior customer service, integrity and commitment to innovation and efficiency.
- The ability to work well under pressure, manage competing demands and meet tight deadlines with strong follow through.
- Self-disciplined, high energy, extremely organized, customer focused, problem solver, good listener and trust builder.
- The ability to use a computer and complete service ticket field testing reports.

Salary & Benefits: Dependent upon experience (salary range \$30K-\$70K)

Competitive pay, vacation, holiday and health benefits. We continue to train and certify our employees with a variety of programs available.
